

## **PROVIDE course/job shadowing publishing template**

---

REVEAL, an Erasmus+ Strategic Partnership project, has developed an online platform to facilitate promotion for Continuing Professional Development (CPD) for adult educators within the KA1 programme.

The platform, which is called PROVIDE, offers a showroom for publishing KA1 courses/job shadowing in order to facilitate searching and finding attractive CPD offers in Europe. This showroom is a European hub for courses/job shadowing and has search functions according to the subject, the country of the course, the competences tackled and the planned dates.

The platform is ready for use and we invite all organisers of a CPD training offer open for KA1 grant holders to publish their offer on this platform, free of charge.

**If you are offering international CPD courses and job shadowing for adult educators we are looking forward to hearing from you and receiving your course descriptions to be published in the course catalogue platform [www.provide-eu.org](http://www.provide-eu.org)!**

- Fill in the Word form below and send it to: [info@provide-eu.org](mailto:info@provide-eu.org) ;
- See your course published on [www.provide-eu.org](http://www.provide-eu.org);
- Expect more course participants who find your course online from across Europe!

Furthermore, we need one or two pictures relevant to your course/JS that can be displayed on the course page. Please include those in your email when you send back this form.

If you want to provide a document for download (either .doc or .pdf) on the course page (e.g. course programme or additional information) please include it in the email as well.

## **[Insert Title of the Course/Job Shadowing]**
